

# Handheld Battery Powered Strapping Machine

Removable 6,000mAh Samsung lithium battery & Stand-alone charger

Approximate 800-1,000 strapping cycles in one single charge (30 minutes)

High performance PCB, Dust-proof, moisture-proof, anti-static

High-performance brushless motor, work continuously up to 15,000 hours

<b>Handheld Battery Powered PP/PET Strapping Machine</b>	
<b>Model</b>	JJW-16
<b>Application</b>	
JD-PSE13/16-14 Handheld Battery Powered Strapping Machine is suitable for the packing of the steel, timber, brick, fiber for its compact design and light weight that enables portability. It is used for paper industry, aluminum industry, steel industry, wood, wooden packaging, chemical fiber, cotton, tobacco, chemicals, metal industry and so on.	
<b>Characteristics</b>	
<ol style="list-style-type: none"> <li>1. Easy to use ,lightweight, compact design, portability</li> <li>2. No fasteners, friction welding , high sealing efficiency</li> <li>3. High degree of automation, easy to operate</li> <li>4. Suitable for different sizes and shapes</li> <li>5. Machine frame and components adopt high strength alloy material and engineering plastics, durable</li> <li>6. High safety performance</li> </ol>	
<b>Characteristics</b>	
<b>Driven Type</b>	Battery Powered
<b>Machine Dimensions</b>	350*140*130mm
<b>Applicable straps</b>	PP strap or PET strap
<b>Strap width</b>	up to 16mm
<b>Strap thickness(PET)</b>	0.5mm-1.2mm
<b>Strap thickness(PP)</b>	0.5mm-1.5mm
<b>Strap sealing form</b>	friction welding
<b>Sealing time</b>	1-3 seconds
<b>Maximum tension force</b>	2,800N
<b>Battery capacity</b>	High capacity lithium battery,6000maH, 14.4V(DC)
<b>Charger input voltage</b>	100-245V(AC), 50-60HZ
<b>Charger output voltage</b>	16.8V(DC)
<b>Charger output current:</b>	3.0A(DC)
<b>Battery life</b>	up to 2,000 charges
<b>Charge time</b>	approximate 30 minutes
<b>Electric motor life</b>	continuous operation to 15,000 hours
<b>Weight</b>	3.4 kg
<b>Advantages</b>	
<p>Samsung high capacity (6,000mAh, 14.4V), up to 2,000 charges</p> <p>Approximate 800-1,000 strapping cycles in one single charge (30 minutes)</p> <p>Brushless Rare-Earth Motor,high efficiency, light temperature increase, continuous work up to 15,000 hours</p> <p>High quality PCB(printed circuit board ), dust-proof, moisture-proof, anti-static.</p>	

**Warranty period:**

1 year for total machine (acesories not included)
