

## KRONOS H-46

### Battery Powered Tool for Plastic Strapping

The Kronos H-46 is a world class battery powered strapping tool with supplier features and performance. It can meet most of the strapping requirements for every application. Kronos H-46 is equipped with German made brushless DC motor to provide the highest level of accuracy and reliability.

Kronos H-46 is available in 2 different models:

- H-46A for light and universal application, tension up to 250kg.
- H-46B for heavy duty industry application, tension up to 400kg.

Kronos H-46 is a world class battery powered strapping tool. With flexible settings, wide tension range, and the ability to accommodate both PP and PET strapping. Kronos H-46 is ideal for a wide range of applications in all industries and sectors. Kronos H-46 delivers the highest productivity and performance to meet the customers packaging needs.

### MAIN FEATURES:

<p><b><u>Easy operation.</u></b></p> <p>The operation of the H-46 is extremely easy. Automatic mode offers fast one button operation to complete the strapping process in less than 4 seconds.</p> <p>Versatile design with auto, semi-auto, manual and soft modes satisfy various strapping requirements.</p>	<p><b><u>Digital Touch Panel</u></b></p> <p>Quick and easy setting touch panel for various operation modes, tension force and sealing time simplify the operation. The digital readout on the panel also shows the battery power level, cycle counter and error codes.</p>
<p><b><u>Wide Tension Force Range.</u></b></p> <p>Easy tension adjustment on the digital touch panel. Variable tension force from 40 to 400 kg makes the H-46 suitable for various applications in all industries and sectors like brick, wood, corrugated cardboard, paper logistics etc.</p>	<p><b><u>Bosch Battery and Charger</u></b></p> <p>German Bosch high quality battery provides up to 415 (for PP) and 320 (for PET) strapping cycles per charge on high tension mode. Rechargeable battery with long life span up 1,000 charges.</p>

### Friction Weld Sealing

The advanced friction weld sealing technology guarantees reliable joint and high seal efficiency for both PP and PET strapping. An automatic weld function speeds up the cycle time.

## MORE FEATURES.

### No adjustment required for different strap thickness

No adjustment is required for different strap thickness and cooling time will be automatically adjusted according to different tensions.

### Brushless Motor Technologies.

German – made brushless DC motor direct drive technology provides the highest level of accuracy and reliability. The state-of-the-art technology results in less maintenance and longer life time of the motor.

### Robust Housing.

The thick and solid structure provides outstanding impact resistance.

### Perfect Balance and Ergonomic Design.

Ergonomic handle with anti-skid design and well-balanced structure make operation easy and effortless.

### Energy Saving Mode

The tool will automatically go into sleep mode if the tool sits idle for a period for energy saving purposes.

## Technical Data

Model Number	H-46A	H-46B
Specification	Light & universal applications	Heavy Duty Applications
Tension Range	40-250 KG	60-400 KG
Strap Widths	11 mm – 13 mm 15 mm – 16 mm	16 mm – 16 mm 19 mm
Strap Thickness	PP 0.55 – 1.05 mm PET 0.55 – 1.05 mm	PP 0.75 – 1.30 mm PET 0.60 – 1.30 mm
Net Weight	4.3 KG	4.4 KG

Battery	Bosch Li-ion 18V, 4.0Ah
Battery Charger	Bosch 115V (110V-120V) 230V (220V-240V) 50/60Hz 1PH

**Offer the Maximum Value with the Minimum Cost.**

**This tool is more than you expect**
